Interns have produced tangible results as they begin building their professional networks, and for many, the internship experience confirms their professional goals. We offer opportunities throughout the News, Creative Services, Local Integrated Media, Human Resources and Sales departments. We provide college students with the opportunity to showcase their many talents and allow KNBC and KVEA to identify high potential talent for future staff hiring as well as YOH associate employees and the NBC Page program. KNBC and KVEA look for students who are committed to a career in media/broadcasting through experiences in their major studies, college clubs/organizations, prior media based internships or prior media work experience. Grade point average, community service, and leadership experience are also an important part of the total assessment of student applicants. KNBC and KVEA work closely with local and out of state colleges and universities to build an active internship training program. During the current Annual Reporting year, a total of **95 Interns** have participated in the Internship program. During that four-year period, students have an opportunity to learn many aspects of corporate operations and develop company-specific skills. Students in the program receive an hourly wage, as well as matching compensation to help pay for college tuition and expenses. Mentoring from selected staff in the sponsoring company is also a key element of the program. Karina Avila, Human Resource Generalist coordinates and oversees the placement of students for both KNBC & KVEA. During the summer semesters, "Emma" students rotate in various KNBC and KVEA departments while gaining experience in every aspect in media. Number of interns during the reporting year: **2**
